

ATTLEBOROUGH SURGERIES

COMPLAINTS PROCEDURE

INTRODUCTION

This procedure sets out the Practice's approach to the handling of complaints and is intended as an internal guide which has been made readily available to all staff.

POLICY

The Practice will take reasonable steps to ensure that patients are aware of:

- the complaints procedure
- the role of the Clinical Commissioning Group (CCG) and other bodies in relation to complaints about services under the contract. This includes the ability of the patient to complain directly to the CCG and to escalate to the Ombudsman
- their right to assistance with any complaint from the Patient Advice Liaison Service

The principal method of achieving this is the Complaints Patient Information Leaflet and website incorporation.

The overall accountable officers for complaints at the Practice are Dr Hilary Byrne and Lucy McLean, Practice Manager.

The Complaints Officers for the Practice are:-

Miss Carolyn Brodie for Reception
Mrs Sarah Young for Nursing
Mrs Louise Egan for Dispensary
Mr Andrew Collins for Information Management

PROCEDURE

Receiving of complaints

The Practice may receive a complaint made by, or (with his/her consent) on behalf of a patient, or former patient, who is receiving or has received treatment at the Practice, or:

(a) where the patient is a child:

- by either parent, or in the absence of both parents, the guardian or other adult who has care of the child;
- by a person duly authorised by a local authority to whose care the child has been committed under the provisions of the Children Act 1989;
- by a person duly authorised by a voluntary organisation by which the child is being accommodated

ATTLEBOROUGH SURGERIES

(b) where the patient is incapable of making a complaint, by a relative or other adult who has an interest in his/her welfare.

All complaints, written and verbal will be recorded, and written complaints will be acknowledged in writing within 3 working days of receipt. Patients will be encouraged to complain in writing where possible.

PERIOD WITHIN WHICH COMPLAINTS CAN BE MADE

The period for making a complaint is normally:

(a) 12 months from the date on which the event which is the subject of the complaint occurred; or

(b) 12 months from the date on which the event which is the subject of the complaint comes to the complainant's notice.

(c) The time limit can sometimes be extended. Complaints should normally be resolved within 6 months. The Practice standard will be 10 working days for a response.

(d) When considering an extension to the time limit it is important that the Practice Manager or the GP takes into consideration that the passage of time may prevent an accurate recollection of events by the clinician concerned or by the person bringing the complaint. The collection of evidence, Clinical Guidelines or other resources relating to the time when the complaint event arose may also be difficult to establish or obtain. These factors may be considered as suitable reason for declining a time limit extension.

Action upon receipt of a complaint

Complaints may be received either verbally or in writing and must be forwarded to the Practice Manager (or the lead GP if the Practice Manager is unavailable), who must:

- acknowledge in writing within the period of 3 working days beginning with the day on which the complaint was made or, where that is not possible, as soon as reasonably practicable, and where appropriate, include an offer to discuss the matter in person. Advise the patient of potential timescales and the next steps;
- ensure the complaint is properly investigated. Where the complaint involves more than one organisation the Practice Manager will liaise with their counterpart to agree responsibilities and ensure that one coordinated response is sent;
- Where the complaint has been sent to the incorrect organisation, advise the patient within 3 working days and ask them if they want it to be forwarded on. If it is sent on, advise the patient of the full contact details;
- provide a written response to the patient as soon as reasonably practicable ensuring that the patient is kept up to date with progress as appropriate. This will include a full report and a statement advising them of their right to take the matter to the Ombudsman if required.

ATTLEBOROUGH SURGERIES

Unreasonable Complaints

Where a complainant becomes aggressive or, despite effective complaint handling, unreasonable in their promotion of the complaint, some or all of the following formal provisions will apply and will be communicated to the patient:

- The complaint will be managed by one named individual at a senior level who will be the only contact for the patient
- Contact will be limited to one method only (e.g. in writing)
- Place a time limit on each contact
- The number of contacts in a time period will be restricted
- A witness will be present for all contacts
- Repeated complaints about the same issue will be refused
- Only acknowledge correspondence regarding a closed matter, not respond to it
- Set behaviour standards
- Return irrelevant documentation
- Keep detailed records

Final Response

This will include:

- A clear statement of the issues, investigations and the findings, giving clear evidence-based reasons for decisions if appropriate
- Where errors have occurred, explain these fully and state what will be done to put these right, or prevent repetition
- A focus on fair and proportionate outcomes for the patient, including any remedial action or compensation
- A clear statement that the response is the final one, or that further action or reports will be sent later
- An apology or explanation as appropriate
- A statement of the right to escalate the complaint, together with the relevant contact detail

Annual Review of Complaints

The Practice will establish an annual complaints report, incorporating a review of complaints received, along with any learning issues or changes to procedures which have arisen. This report is to be made available to any person who requests it, and may form part of the Freedom of Information Act Publication Scheme.

This will include:

- Statistics on the number of complaints received
- Justified / unjustified analysis
- Known referrals to the Ombudsman
- Subject matter / categorisation / clinical care
- Learning points
- Methods of complaints management
- Any changes to procedure, policies or care which have resulted

ATTLEBOROUGH SURGERIES

Confidentiality

All complaints must be treated in the strictest confidence.

Where the investigation of the complaint requires consideration of the patient's medical records, the Complaints Manager must inform the patient or person acting on his/her behalf if the investigation will involve disclosure of information contained in those records to a person other than the Practice or an employee of the Practice, and consent will be sought.

The Practice must keep a record of all complaints and copies of all correspondence relating to complaints, but such records must be kept separate from patients' medical records.
